

BOARD OF HEALTH.

Held a Long and Interesting Meeting Yesterday.

The first business before the Board of Health at its regular meeting yesterday was the application of a Chinaman for a license to smoke opium. This was denied but the opium will be smoked all the same.

Next came Deputy Marshal Brown who requested the Board to take some action in the matter of Japanese prostitutes and suggested they should be confined to a certain part of the city where the police could watch them. After a general discussion on the matter the Board decided to leave the matter into the hands of the Marshal for the present.

Dr. Herbert's quarterly report on the Insane Asylum was presented, and being of more than ordinary interest, is published in full:

There are on the list of inmates 86 names whose different forms of disease may be classified as follows:

Mania (Acute.....)	14
(Chronic.....)	29
Melancholia.....	2
Dementia.....	14
Acute Dementia.....	5
Paresia.....	6
Dipsomania.....	1
Imbecile.....	3
Opium Habit.....	2
Idiocy.....	1
Epileptics.....	6
Not Insane at Present.....	3

Total..... 86

The general health of the establishment has been good, the mortality small. The number of patients increased, causing an increased demand on funds, etc. It will be noticed by glancing at the list showing nationality, etc., that the large majority of patients are Chinese, Hawaiian and Portuguese, in that order. The percentage to their nationality being as follows:

About res. pop. Inmates	
Chinese.....	15,000 21
Hawaiians.....	35,000 25
Portuguese.....	3,000 15

Most of those committed have been some years resident in the islands.

The utmost care is taken to keep the wards and cells scrupulously clean, which is a much more difficult proceeding than might appear to any one not familiar with the ways and whims of these poor afflicted. The keepers have watches of eight hours at a time, and each new watch sees that the keepers before them have left their wards clean and in good order.

Good filters have been supplied and an effort made to prevent the inmates from drinking other than filtered water. Their meals, which are excellent, are served at the following times and consist of:

Breakfast, 6:30 a. m. Boiled beef, rice, taro, stew, tea and bread, salmon three times a week for a change.

Dinner, 11:15 a. m. Boiled, roast or stewed beef or mutton, rice and taro, with pork and beans on Sundays.

Supper, 4:45 p. m. Fruit, one quarter loaf of bread, cold meat, salmon, stew or meat balls.

All inmates who are accustomed to their food served more delicately, and can appreciate it, have their meals furnished from the Assistant Superintendent's house.

It is with great pleasure we watch the progress of the new Woman's Department, so sorely needed, and as soon as it is completed we shall have to tear down the cells (eight in number) constituting the wing in rear of Ward 3, and rebuild them. The woodwork is all rotten and sodden, making it positively dangerous to the health of those confined therein. We only use them now in case of actual necessity.

A number of the inmates are working—some in the taro lands, some in the kitchen, and others around the buildings and grounds, but many and the majority spend day after day in the same place, and many in the same position waiting solely for their meals and night to come round again. They see little beyond their white fence enclosure, inside of which most of them are doomed to spend the rest of their unfortunate existence; and how surely it is our duty to make these grounds as bright and cheerful as we can. It is, in fact, the first detail in the treatment of these people to have them contented and pleased with their place of detention, particularly in acute phases of the disease, when it will in itself be conducive to the return of health and reason.

To do this, to keep the grounds in good order, to build some extra cells in the place of those behind Ward 3, and to provide extra attendants for the new accommodations, will necessitate extra provision being made by the Board, who, I trust, will exert liberality in the matter.

The report was accepted and the Superintendent of Public Works ordered to examine premises and report on the cost of proposed improvements, etc.

The President of the Board stated that in response to invitations heretofore issued that a number of physicians from the other islands would be on hand next week and accompany the board to Molokai.

The next meeting of the board will be held in the room now occupied by the Labor Commission, the present quarters being too small.

After transacting the usual routine business the board adjourned until next Thursday.

Mrs. Judge Peck

Dyspepsia

Mrs. Judge Peck Tells How She Was Cured

Sufferers from Dyspepsia should read the following letter from Mrs. H. M. Peck, wife of Judge Peck, a justice at Tracy, Cal., and a writer connected with the Associated Press:

"By a deep sense of gratitude for the great benefit I have received from the use of Hood's Sarsaparilla, I have been led to write the following statement for the benefit of sufferers who may be similarly afflicted. For 15 years I have been a great sufferer from dyspepsia and

Heart Trouble.

Almost everything I ate would distress me. I tried different treatments and medicines, but failed to realize relief. Two years ago a friend prevailed upon me to try Hood's Sarsaparilla. The first bottle I noticed helped me, so I continued taking it. It did me so much good that my friends spoke of the improvement. I have received such great benefit from it that

Gladly Recommend It.

I now have an excellent appetite and nothing I eat ever distresses me. It also keeps up my

McBRAYER'S

Hand-made Sour Mash

A SPECIALTY.

INDURIN

A COLD WATER PAIN

A SUBSTITUTE FOR OIL PAINT AND WHITEWASH.

AN EXCELLENT FIRE RETARDANT AND DISINFECTANT

Especially Designed For INSIDE Work on Factories and Public Buildings

It is a dry powder which can be prepared for use by simply stirring in COLD WATER and can be applied by anyone and will always produce good work.

It is VERY WHITE, extremely effective and hardens on a wall of stone and will take any tint.

It will last for years, and is not affected by gases.

One coat covers better than two coats of oil paint or whitewash.

It can be used on any surface or all classes of work, even for interior decorating.

It will not rub, scale or crack, will it soften with age or discolor.

It will not set in the mixing vessel in fact it improves by standing a few days.

It can be used to good advantage over old whitewash without scraping.

IT DRIES OUT WHITE AFTER BEING WET.

It is cheaper than whitewash, durability considered.

Is supplied in barrels from 400 lbs., also in boxes of 100, and 25 pounds.

Outside Indurine

This is for OUTSIDE Work

Such as Fences, Outbuildings, Laborer's Quarters. It is a thick paste to be diluted with cold water stands rain and exposure as well as oil paint, and costs but a fraction much. It is fire-resisting as it contains no oil, and has no equal light reflector in dark basements, damp cellars and similar places. Is supplied in colors.
